OVERVIEW

Health, Safety and Environment (HSE) protects people, assets and the environment on every site. COTI supplies personal protective equipment, gas detection, Fire & Gas components, firefighting, emergency-response and safety consumables suited to field conditions.

CONTENTS

14.1 PPE
14.2 Respiratory protection, breathing apparatus, fall-protection and rescue equipment.
14.3 Portable and fixed gas detection; Fire & Gas detection and alarm components.
14.4 Firefighting and fire-suppression equipment and associated components.
14.5 Emergency showers/eyewash, spill-control materials, emergency-response and first-response…
14.6 Industrial safety signage, hazardous-area accessories and HSE consumables.

14.1 PPE

SUPPLY SCOPE

PPE: helmets, eye/face protection, gloves, safety footwear and flame-resistant clothing.

DEFINITION

PPE (Personal Protective Equipment) is the first barrier between the worker and the hazard: helmets, safety glasses and face shields, gloves, safety footwear and flame-resistant (FR) clothing for areas with fire or flash risk.

14.2 Respiratory protection, breathing apparatus, fall-protection and rescue...

SUPPLY SCOPE

Respiratory protection, breathing apparatus, fall-protection and rescue equipment.

DEFINITION

Respiratory protection filters or supplies breathable air; self-contained breathing apparatus is used in toxic atmospheres. Fall-protection harnesses, lanyards and rescue equipment protect people working at height or in confined spaces.

14.3 Portable and fixed gas detection; Fire & Gas detection and alarm components.

SUPPLY SCOPE

Portable and fixed gas detection; Fire & Gas detection and alarm components.

DEFINITION

Portable gas detectors are worn by workers; fixed detectors monitor areas continuously. Fire & Gas systems combine flame, smoke and gas detectors with alarm panels that trigger alarms and automatic safety actions.

14.4 Firefighting and fire-suppression equipment and associated components.

SUPPLY SCOPE

Firefighting and fire-suppression equipment and associated components.

DEFINITION

Firefighting equipment includes extinguishers, hoses, nozzles, monitors and hydrants. Fire-suppression systems (foam, water spray, gas) extinguish fires automatically in critical areas.

14.5 Emergency showers/eyewash, spill-control materials, emergency-response and...

SUPPLY SCOPE

Emergency showers/eyewash, spill-control materials, emergency-response and first-response equipment.

DEFINITION

Emergency showers and eyewash stations rinse chemicals from the body; spill kits and absorbents contain leaks; first-aid and emergency-response equipment support the first minutes of an incident.

14.6 Industrial safety signage, hazardous-area accessories and HSE consumables.

SUPPLY SCOPE

Industrial safety signage, hazardous-area accessories and HSE consumables.

DEFINITION

Safety signage warns of hazards and marks escape routes. Hazardous-area accessories and HSE consumables (barriers, tags, lockout kits) support safe daily work.

Specialized services are provided and/or coordinated with qualified technical partners according to project requirements.

Contact COTI

Send us your RFQ, part numbers, nameplate photos or technical specifications. We will review your requirement and reply with a structured proposal.
